Team Members in this position inspect product for quality defects and notify leaders when there is an ongoing quality problem. In addition, they complete all production paperwork in an accurate and timely manner. They take the inspected product and package them in boxes or on pallets.

N.E.W. Plastics Corp. is a family owned business which employs 200+ team members. We are a diverse group of hard-working team members, working together to reclaim waste plastic and keep recyclable materials out of the nation's landfills. We make plastic containers for the food, automotive, and agriculture industries and plastic lumber for decks and furniture.
